

2008 Table Base Price List

Gilmore Inc. is the leading contract industry supplier of conference table bases in a wide variety of styles, sizes and materials. Our goal is to provide a quality base component that is complete and ready to support your tops and product design. Bases are available in a variety of coverings including; standard and specialty veneers, laminates, metals, paint, and even upholstery.

Bases can be supplied unfinished or finished. Wiring options and access doors are typically built in the bases. In addition to our standard bases, we excel at customization and have the capacity to produce your unique custom designs, in small or large volume. Gilmore Inc. has been manufacturing geometric bases for over 20 years and has developed specialized production equipment, techniques and materials to be able to provide our customers with the highest contract quality available.

Veneer and Laminate Bases

Our bases are complete and ready to use. Standard veneer bases feature Grade A select and balanced veneer faces laminated over a smooth and concentric core with a heat resistant glue, fully

enclosed on the ends with a sealed moisture resistant bottom and levelers. Sanded to your specifications and ready for finish; providing a complete base that requires no further manufacturing.
