

**Furniture and
components you
want to put your
name on.**

Gilmore
Redefining OEM.

**Custom or
mass production
capabilities.**

Gilmore wood components for tables, caseworks, and seating are made to an exacting degree of precision, craftsmanship, and quality. Our engineering expertise combines impeccable hand and machine work to produce beautiful results. Choose from any wood species, and Gilmore will provide what you need—unfinished or skillfully finished to your specifications.

**Manufacturing
focused on design
and detail.**

Gilmore can help you design, engineer, and construct conference tables, occasional tables, tops, bases, and other components that bring your vision to life. We are masters at working with standard and specialty veneers, detailed inlays, patterned veneer lay-ups, and one-of-a-kind pieces.

We are also adept at combining our hand- and machine-crafted wood products with other materials to create enduring, beautiful furniture. Our business is known for crafting large, complex conference and dining tops for major corporations around the world. We are skilled at contrasting solid wood, veneer, and laminate with stone, metal, glass and other specialty materials to develop unique products that make a statement in any atmosphere.

**Everything but the
name on the box.**

Finished goods—how and when you need them—are what you can expect from Gilmore.

As a leading supplier of contract lounge seating and benches, Gilmore delivers fine products upholstered in either leather or fabric. We excel at small-lot, premium seating, crafted with an incredible attention to detail and outstanding durability.

Exceptional craftsmanship combined with well-honed business acumen—that's what makes Gilmore a valuable partner for enhancing your finished products.

Our expertise in wood, veneers, metal, stone and upholstery is unsurpassed. Look to us for occasional and conference tables, components, cylinders, bases, and seating—finished or unfinished according to your specifications. You'll find our products perfect for hospitality, education, and healthcare environments, as well as any office setting. Regardless of whether you need one-of-a-kind or mass-production manufacturing, Gilmore provides superior knowledge, engineering, and workmanship to create product you'll be proud to call your own. We'll even ship your final product, in your packaging, to your end users.

Gilmore is redefining what it means to be an OEM. What can we do for you?
